

PUPS 02 5050

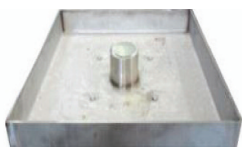

Total power 63 amps single supply. Supplies electricity and data points to public places. Operates unattended with the lid locked down, with only the power cable protruding.

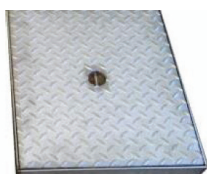

PRODUCT SPECIFICATIONS

- "Flip Lid" power supply unit model "PUPS02", for power distribution and other services; totally hidden even in operation.
- Cover in stainless steel, recessed to fit with matching surface finish, or closed; cover size 570 x 570mm opening facilitated by a pivot partially pull-out from the lid surface, and a dual gas actuator.
- Cover secured in closed position by safety bayonet lock in bronze, with lever lock in stainless steel AISI 304 operated with key (square footprint). Overall depth of unit 550mm.
- Operates with the cover closed and with plug inserted (max 1 x 63A), through a special rubber door for cable outlet. Removable stainless steel plate for electrical equipment support (provision for grounding in this case).

STANDARD COVER TYPES

A. Cover in stainless steel to fill - depth 60mm rating up to 20 tonnes with lock and rubber opening for cable.

B. Cover in stainless steel closed rating up to 20 tonnes with lock and rubber opening for cable.

ELECTICAL CONFIGURATIONS

1. Shows/events

- 1 x CEE socket 5p 63A with protection
- 1 x power supply cable or terminal block

2. Shows/events

- 2 x CEE socket 5p 32A with protection
- 1 x power supply cable or block

3. Marketplaces

- 1 x CEE socket 5p 32A with protection
- 3 x CEE socket 3p 16A with protection
- 1 x power supply cable or terminal block

4. Marketplaces

- 6 x CEE socket 3p 16A with protection
- 1 x power supply cable or terminal block

TYPE OF MOVEMENT

Semi-automatic lifting assisted with gas ram and release key with pivot to facilitate opening.

STRUCTURE

RBK concrete and stainless steel.

ADDITIONAL EQUIPMENT

- Connectors for RJ45, video, phono, audio

CONNECTION SYSTEMS

- By cable tail type H07RN-F (3mt standard)
- By internal junction box
