

# PUPS 02 7050

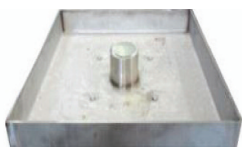

Total power 125 amps single supply. Supplies electricity and data points to public places. Operates unattended with the lid locked down, with only the power cable protruding.

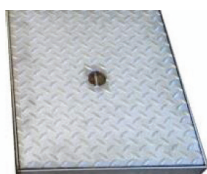

## PRODUCT SPECIFICATIONS

- Retractable power supply unit model. "PUPS02", for power distribution and other services; totally hidden even in use.
- Cover in stainless steel, recessed to fill with matching surface finish - cover size 700 x 500mm opening facilitated by a pivot, partial pull-out from the lid surface, and a dual gas actuator.
- Cover secured in closed position by safety bayonet lock in bronze, with lever lock in stainless steel AISI 304 operated with key (square footprint).
- Operates with the cover closed and with plug inserted (max 1x125A), through a special rubber door for cable outlet.
- Removable stainless steel plate for electrical equipment support (provision for grounding in this case).

## STANDARD COVER TYPES

A. Cover in stainless steel to fill - depth 60mm rating up to 40 tonnes with lock and rubber opening for cable.

B. Cover in stainless steel closed rating up to 40 tonnes with lock and rubber opening for cable.

## ELECTICAL CONFIGURATIONS

### 1. Shows/events

- 1 x CEE socket 5p 125A with protection
- 1 x power supply cable or terminal block

### 2. Shows/events

- 2 x CEE socket 5p 63A with protection
- 1 x power supply cable or block

### 3. Marketplaces

- 2 x CEE socket 5p 32A with protection
- 3 x CEE socket 3p 16A with protection
- 1 x power supply cable or terminal block

### 4. Marketplaces

- 8 x CEE socket 3p 16A with protection
- 1 x power supply cable or terminal block

## TYPE OF MOVEMENT

Semi-automatic lifting assisted with gas ram and release key with pivot to facilitate opening.

## STRUCTURE

RBK concrete and stainless steel.

## ADDITIONAL EQUIPMENT

- Connectors for RJ45, video, phono, audio

## CONNECTION SYSTEMS

- By cable tail type H07RN-F (3mt standard)
- By internal junction box
